TABLE OF CONTENTS

	PAGE
1.0 Introduction.....	1
2.0 Surface Owners.....	2
3.0 Mineral Owners.....	14
4.0 Permit Area Location.....	28
5.0 Permit Area Topography.....	30
6.0 Permit Area Geology and Hydrology.....	39
7.0 Tobin Map.....	42
8.0 Mine Plan.....	43
9.0 Regional Geology.....	44
10.0 Water Supply Wells.....	47
11.0 Excursion Prevention.....	66
12.0 Well Completion.....	67
13.0 Mechanical Integrity.....	68
14.0 Hydrologic Testing.....	69
15.0 Restoration.....	70
16.0 Closing.....	71
17.0 Production Facilities and Procedures.....	72

1.0 INTRODUCTION

1.0 INTRODUCTION

This application is being made to expand the permitted and exempted portion of the Kingsville Dome Project. The portion of the Goliad Aquifer which will be affected by the exemption, if granted:

1. does not currently serve as a source of drinking water for human consumption; and
2. will not in the future serve as a source of drinking water for human consumption because of its mineral production capacity and URI's control of the leases.

To avoid wasting time, URI has not duplicated all the information which was within the application for URO 2827. Where such redundancies occur, it was simply noted that the information remains unchanged from the original applications.
